Data & Decisions  
Reimagined for the  
Enterprise!

INNODEL TECHNOLOGIES PVT. LTD.

- Formzi is multi-tenant web based platform offering mobile business apps and forms as a service to create custom forms, streamline the data collection and analyze data - providing a very efficient alternate to paper forms.
- It consists of a web application for administrators to design custom forms, assign jobs and get insights from data collected. The data collected can be consumed in third party app using Web API.
- Forms created can be accessed via web forms or Formzi mobile apps (for iOS and Android tablets & smartphones), to let field staff / users collect data on-the-go.
- Not just a form builder, Formzi can help you **automate your process workflows** - Employee Work Report, Timesheets, Time & Attendance, Leave Application & Approval, Purchase Order Lifecycle, Internal Work Order, File Tracking, Safety Inspection and Compliance etc.

**formzi.com**

- Paperwork (Lost / Damaged or No Forms, illegible Handwriting, Storage & Access, Slow to Share, No Analytics)
- Manual data entry process (not possible on-the-go) causing information gaps & doctoring
- Can't Automate Process Workflows
- On-premise and Private Cloud Hosting Support
- Forms are industry-specific and Can't be changed
- Unavailability of mobile apps - If apps are available, internet connectivity is required for posting submissions
- Integrated Role Based Access is not available
- Custom reporting / analytics is not available

**Problems  
that Formzi  
Solves**

- Government & Public Sector
- Mining, Excavating, Oil, Gas & Energy
